Tips with reference to the comments of the existing cohorts of APL students at SPC

DON'T

- take it as an interest class with no commitment
- replace it as an elective subject in DSE
- enrol a course without consulting the CLP Master, teachers and parents

DO

- study the information in the official webpages/ join the virtual exhibition
- evaluate the time management for balancing academic studies and the social skills for group work with students from other schools
- join the taster programmes to gain some authentic experience before making decision

2. Subject Allocation Procedure: *How does it work?*

- Students have to indicate their preferences of Curriculum between DSE and IAL as well as rank the Elective Subjects and Mathematics Extended Modules according to their preferences
- A computer software programme is used to generate an academic structure that can highly accommodate students' preferences
- Allocation of Elective Subjects according to students' final order of merit in F.3
- Allocation of Mathematics (Core only / Core + M1 / Core + M2) according to students' Mathematics examination results

Satisfaction Rates in the Past Three Years

Academic Year	Satisfaction Rate for First Three Choices
2019-2020 F.4 <i>(HKDSE only)</i>	86.2%
2020-2021 F.4 <i>(HKDSE only)</i>	89.0%
